

Meeting NeuZu2016

Wednesday 24th and Thursday 25th February 2106

Venue: University of Neuchâtel, Faculty of Law and Economics and Business, Av. du 1er-Mars 26, room D63

Wednesday 24th

10h00 - 10h30: Coffee/Introduction

10h30 - 10h50: Yaëlle Bouquet (N) "Is there audience effect in copulation calls in wild olive baboons?"

10h55 - 11h15: Christine Sievers (BS) "Reference in nonhuman primate communication: what does it take to refer? "

11h20 - 11h40: Pawel Fedurek (N) "Information associated with the four phases of a chimpanzee pant hoot"

11h45 - 12h05: Stéphanie Mercier (N) "Field Course in South Africa: Methods in Animal Behaviour"

12h10 - 13h45: Lunch (Le Romarin, Rue de la Maladière 62)

13h45 - 14h05: Erica van de Waal (Z): "Identifying and dissecting conformity in animals in the wild: further analysis of primate data"

14h10 - 14h30: Yvonne Zürcher (Z) "Vocal dialects and the evidence of vocal leaning in common marmosets"

14h35 - 14h55: Sandra Heldstab (Z) "How terrestrial mammals cope with seasonality"

15h00 - 15h30: Coffee Break

15h30 - 15h50: Matthias Wubs (N) "A model on female primate grooming"

15h55 - 16h15: Christoph Dahl (N) "Processing and classification of primate calls"

16h20 - 16h40: Franca Eichenberger (Z): "Parallel dispersal and its effect on male reproductive success in vervet monkeys?"

18h45: Social dinner – La Brasserie du Jura, Rue de la Treille 7

Thursday 25th

09h30 - 09h50: Jennifer McClung (N) "The Prisoner's Dilemma in Action: Effects of Group Membership and Communication on Cooperation"

09h55 - 10h15: Zegni Triki (N) "Oxytocin and cooperation in humans"

10h20 - 10h50: Coffee Break

10h50 - 11h10: Samuel Wittwer (Z) "How do bottlenose dolphins select their alliance mates?"

11h15 - 11h35: Laura Damerius (Z) "Human Orientation and its Effect on Cognitive Performance in Orangutans"

11h40 - 12h00: Claudia Stephan (N) "The potential of male predator-specific calls to advertise behavioural conformity"

12h00 - 13h30: Lunch (Le Romarin, Rue de la Maladière 62)

13h30 - 13h50: Eloisa Martins (Z) "How do common marmosets communicate about food?"

13h55 - 14h15: Sereina Graber (Z): "What drives brain size evolution in primates? Social vs. ecological factors"

14h20 - 14h40: Renata Mazzei (N) "Causes and consequences of intraspecific social behavioural variation in cleaning gobies"

14h45 - 15h15: Coffee Break

15h20 - 15h40: Filipe Cristovão (Z)

15h45 - 16h00: Final discussion – Future of NeuZü
