

Chloroplast Lipids: from synthesis to function
- a joint course with CUSO MPS

Venue: University of Neuchâtel, Faculté des sciences, Emile-Argand 11, UniMail
Note the different rooms!

10 November 2016		11 November 2016	
	>> Room B013 (building B, grnd floor)		>> Room E301 (building E, 3rd floor)
8:30	Registration		
8:55	Welcome and introduction	8:55	Introduction
9:15	Peter Dörmann <i>"The metabolism of chlorophyll, phytol and tocopherol in Arabidopsis chloroplasts"</i>	9:00	Rebecca Roston <i>"Lipid movement in chloroplast membranes: an important part of a plant's daily routine"</i>
10:00	Juliette Jouhet <i>"Lipid remodeling and trafficking during phosphate starvation"</i>	9:45	Claire Bréhélin <i>"Plastoglobules and lipid droplets: two sites of leaf lipid storage in response to abiotic stress"</i>
10:45	Coffee break	10:30	Coffee break
11:15	Student talks <i>(speed talks, all registered students)</i>	11:00	Students meet with PIs <i>(informal discussion about career/ communication tricks/ research projects...)</i> 2-3 students with 1 PI for 20-30 min
12:15	Lunch (<i>Le Romarin</i> , Maladière 62)	12:15	Lunch (<i>Le Romarin</i> , Maladière 62)
	>> Room E301 (building E, 3rd floor)		>> Room E003 (building E, grnd floor) (informatic room)
13:45	Poster session	13:45	Alan Bridge <i>"Knowledge resources for lipids and lipidomics"</i> (Lecture + Practical exercises)
15:15	Student talks (20 min talks selected from abstracts)	15:15	Coffee break
16:15	Coffee break	15:30	Gaetan Glauser <i>"Lipid profiling of plant whole leaves by liquid chromatography-mass spectrometry"</i> (Lecture + Practical exercises)
16:45	Laurent Mène-Saffrané <i>"Unraveling the genetic basis of vitamin E accumulation in plants"</i>	17:00	End
17:30	End
