

UNIVERSITÉ DE
NEUCHÂTEL

The University of Neuchâtel, Switzerland,
invites applications for a position of

Full professor (100%) in data science

Job description: The successful candidate will teach various courses at the Bachelor and Master's levels (7 hours/week all year long), mainly in the Master of Science in computer science BeNeFri (Bern, Neuchâtel and Fribourg) as well as in other curricula. The candidate is expected to establish an internationally recognized research program in computer science, in the field of data science. He/she will supervise master's and doctoral theses and participate in the administrative tasks of the institute and the Faculty of Science. Courses are taught in English (MSc) and French (BSc). For a non French-speaking person, this requires a commitment to have a sufficient fluency in French within one year.

Requirements: Applicants must hold a doctorate in computer science, an internationally recognized research record and have strong teaching skills.

Starting date: August 1st, 2021 or upon agreement.

Application deadline: September 15th, 2020.

Applications should be uploaded onto www.unine.ch/candis (ref. FS-DataScience) in the form of a single PDF file, including a letter of motivation, a CV documenting full teaching and research experience, a list of publications, copies of diplomas and a list of experts able to assess the candidate's competence (with at least three names). The candidate is also invited to present a statement (3 pages max.) of teaching and research interests, his/her scientific approach to the domain, and projects that he/she intends to undertake at Neuchâtel.

Further information can be obtained by contacting the Head of the Hiring Committee, Prof. Pascal Felber (pascal.felber@unine.ch), as well as by visiting the Faculty website at www.unine.ch/sciences.

The University of Neuchâtel is committed to providing non-discriminatory working conditions.
